

## Fall 2010

At this point, nothing is planted for spring and everything is still available for all published ship dates.

Although most crops can be made given a 10 week lead time, (PF products and Tuberous Begonias require a 15 week lead time) stock sources get sold out and product can become unavailable if not ordered earlier.

Questions? Give us a call. (800) 773-1694

Thanks

Randy Brown
